12 January 1987

MEMORANDUM FOR: Director of Information Technology

FROM:

[REDACTED]

25X1

Chief, PCS Intelligence Control Group

SUBJECT:

Backup to the Intelligence Information
Dissemination System (IIDS)

REFERENCE:

Your 9 January 1987 Response to My
Memo dated 15 September 1986

1. Your response to my memorandum on the Special Computer Center and Echoerr Downtime is very much appreciated. The question I had regarding a backup system when our new Special Center IIDS is down was not related to the EXTEL printer. The question involved our having a link to MHF as we now have with CDS to provide us with a backup system.

2. About 3 months ago we discussed the possibility of an MHF link with the MHF contractors and they did not foresee any problems in providing such a link. I and [REDACTED] my assistant would like to discuss this further with you and MDCA representatives and at the same time get an update on the status of MHF. Please let me know when it is convenient to have such a discussion.
